

Degausser (DEG-20CL)

The Youwipe degausser is powerful and light, ideal for handling the failed HDD and Tapes in a fast and secure way. An integrated network port, enables the erasure report audit trail per disk/tape to be automatically sent to the WipeCenter portal (local or cloud) for the optimum erasure management.

- 100% data erasure of Tapes and HDD (3.5" and 2.5")
- Includes the WipeCenter for erasure report management (local and cloud)
- Reports are stored in PDF and CSV
- API for in-house reporting integration
- Easy operation with only one button and 3 LED indicators
- Fast erasure: 32s-58s erasure-time per disk/ up to 60 harddrives per hour
- 2 Security standards (Baseline and High Security)
- Strong magnetic impulse-field with up to 20.000 Gauss
- Reporting Software: DokuKit Professional for Win 10
- Dimensions: 52,2 (w) x 22,8 (h) x 51 ,2 (d) cm
- Weight: 19,9 Kg
- Power: 100-1 20V / 50-60Hz / max. 1 0A / < 1 000W
